Art Unit: 2154

The following is an examiner's statement of reasons for allowance:

Claims 9-18 are allowable over the prior art of record for the following reasons:

The prior art of record does not teach or fairly suggest all the limitations recited in the claims 9-18. Specifically, the prior art of record does not teach or fairly suggest the method for synchronizing a client and a server, comprising the steps of receiving a synchronization query from the client, wherein said synchronization query includes a first synchronization indicator; comparing said first synchronization indicator with a second synchronization indicator maintained on behalf of the client to determine whether a previous synchronization process was successful; if it is determined that said previous synchronization process was not successful, then comparing said first synchronization indicator with one or more third synchronization indicators maintained on behalf of the client; and if it is determined that said first synchronization indicator corresponds to one of said third synchronization indicators, then generating instructions to synchronize the client and the server based on said one of said third synchronization indicators as recited in the claims and disclosed in the specification (see page 36, line 6 to page 41, line 15).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
